INDEPENDENT AUDITOR'S REPORT

**To the Superintendent and Members of
the Douglas County Board of Education
Douglasville, Georgia**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Douglas County Board of Education as of and for the year ended June 30, 2010, which collectively comprise the Douglas County Board of Education's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Douglas County Board of Education's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Douglas County Board of Education as of June 30, 2010, and the respective changes in financial position, where applicable, thereof and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated April 15, 2011 on our consideration of the Douglas County Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis (on pages 3 through 10) is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Douglas County Board of Education's basic financial statements. The schedule of state revenue, schedule of Quality Basic Education Program (QBE) Allotments and Expenditures, and the schedule of expenditures of Special Purpose Local Option Sales Tax Proceeds are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the Douglas County Board of Education. The schedule of state revenue, schedule of Quality Basic Education Program (QBE) Allotments and Expenditures, schedule of expenditures of Special Purpose Local Option Sales Tax Proceeds, and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**DOUGLAS COUNTY BOARD OF EDUCATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010**

Our discussion and analysis of the Douglas County Board of Education's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2010. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the financial statements and the notes to the basic financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2010 are as follows:

- ✓ The School District refunded the outstanding portion of the Series 1999 General Obligation Refunding Bonds during fiscal year 2010. This refunding reduced the total debt service payments by \$715,681 over the next five years.
- ✓ Net assets increased \$11.7 million, which represents a 4.1 percent increase from fiscal year 2009. This total increase was due to governmental activities since the School District has no business-type activities.
- ✓ General revenues accounted for \$121.9 million in revenue or 48.4 percent of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$130.0 million or 51.6 percent of total revenues. Total revenues were \$251.9 million.
- ✓ The School District had \$240.1 million in expenses related to governmental activities; only \$130.0 million of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily property and sales taxes) of \$121.9 million were adequate to provide for the remaining cost of these programs.

Using the Basic Financial Statements

This annual report consists of management's discussion and analysis, a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Douglas County School District as a financial whole, or as an entire operating entity.

The district-wide financial statements include the Statement of Net Assets and Statement of Activities. These statements provide information about the activities of the School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances.

The fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds. In the case of the Douglas County School District, the General Fund, Capital Projects Fund, and Debt Service Fund are the most significant funds.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010**

District-Wide Statements

The District-Wide financial statements are a consolidation of the District's operating funds into one column, with both short and long-term focus, called governmental activities. While these documents contain the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2010?" The Statement of Net Assets and the Statement of Activities answer this question. These statements include all assets and all liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's net assets and changes in those assets. This change in net assets is important because it tells the reader whether, for the District as a whole, the financial position of the Board has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, facility conditions, required educational programs and other factors.

In the Statement of Net Assets and the Statement of Activities, the District has one distinct type of activity:

- ✓ Governmental Activities - All of the District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation, food service, after school program, school activity accounts and various others.

Fund Financial Statements

Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental funds are the general fund, the district-wide capital projects fund, and the debt service fund.

Governmental Funds – Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

**DOUGLAS COUNTY BOARD OF EDUCATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010**

Fiduciary Funds – The District is the trustee, or fiduciary, for assets that belong to others, such as school clubs and organizations within the school activity accounts. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the district-wide financial statements because it cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE

The perspective of the Statement of Net Assets is of the District as a whole. Table 1 provides a summary of the District's net assets for fiscal year 2010 compared to fiscal year 2009.

Governmental Activities

Instruction comprises 62.6 percent of governmental program expenses. Interest expense comprises 3.8 percent of governmental program expenses. Interest expense was attributable to the outstanding bonds for capital projects.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Although program revenues make up a majority of the revenues, the District is still dependent upon tax revenues for governmental activities. Over 42 percent of instruction activities are supported through taxes and other general revenues; for all governmental activities general revenue support is 45.9 percent.

The District's Funds

The District's governmental funds are accounted for using the modified accrual basis of accounting. Total governmental funds had revenues and other financing sources of \$270 million and expenditures and other financing uses of \$328 million. Included in the expenditures were \$67 million of capital outlay expenditures and \$11 million of principal retirement. The School System's General Fund remains in sound financial position with a year-end fund balance of \$40.9 million.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010**

General Fund Budgeting Highlights

The District's budget is prepared according to Georgia law. The most significant budgeted fund is the general fund. The District uses site-based budgeting. The budgeting systems are designed to tightly control total site budgets but provide flexibility for site management.

For the general fund, the actual revenues of \$215.6 million were \$2.4 million less than the final budgeted amount. This difference was related primarily to additional cuts to state funding. The cuts were partially offset by federal funds that were passed through from the state.

The actual expenditures of \$220.4 million for the general fund were less than the budgeted amount by \$14.2 million. This was due to reductions and delays in planned expenditures in light of declining revenues and reductions in state funds during the fiscal year.

The District's Board continues to monitor fund balance in anticipation of future needs, continued decline in state funding, and continued student growth. These results are evidence of their work.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2010, the District had \$336.8 million invested in capital assets, all in governmental activities. Table 4 shows fiscal year 2010 balances compared with fiscal year 2009 balances.

Due to the ongoing growth in the county, the District continues to have numerous construction projects including new buildings, additions and renovations. More detailed information on the District's capital assets can be found in the notes to the financial statements.

Debt

At June 30, 2010, the Board had \$215.2 million in bonds outstanding with \$11.2 million due within one year. Table 5 shows fiscal year 2010 balances compared with fiscal year 2009 balances.

Current Issues

The Douglas County School System is financially stable. The School System's current operating millage is 20.00, which produces approximately \$3.4 million per mill. The operating millage rate for 2010 was increased from the rate for 2009 of 18.35, which supported the fiscal year 2010

**DOUGLAS COUNTY BOARD OF EDUCATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010**

budget. This rate increase was necessary primarily due to the 15.45% decrease to the net maintenance and operations tax digest. Douglas County, and the Douglas County School System, continues to suffer economic setbacks in line with a state and national economy that is declining in growth. The State of Georgia has experienced revenue shortfalls that will directly impact funding to the state's school systems. From all indications, the State of Georgia will continue to impose formula reductions across the State. This is a significant factor in the District's annual budget and planning processes. Despite these challenges, the School System's management and Board are committed to continue to effectively and prudently manage the available resources to provide quality educational opportunities for all of the System's students.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2010**

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$	(58,242,205)
--	----	--------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The amount by which capital outlays exceeded depreciation in the current period is as follows:

Capital outlay	\$ 67,062,150	
Depreciation expense	<u>(10,634,088)</u>	56,428,062

The net effect of the sale of fixed assets is to decrease net assets		(304,099)
--	--	-----------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Property taxes	\$ 506,938	
Sales taxes	<u>177,346</u>	684,284

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Principal payments - bonds	\$ 11,360,000

**DOUGLAS COUNTY BOARD OF EDUCATION
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2010**

Note 1: DESCRIPTION OF SCHOOL DISTRICT AND REPORTING ENTITY

Reporting Entity

The Douglas County Board of Education (School District) was established under the laws of the State of Georgia and operates under the guidance of a school board elected by the voters and a Superintendent appointed by the Board. The Board is organized as a separate legal entity and has the power to levy taxes and issue bonds. Its budget is not subject to approval by any other entity. Accordingly, the School District is a primary government and consists of all the organizations that compose its legal entity.

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The School District's basic financial statements are collectively comprised of the Government-wide financial statements, fund financial statements and notes to the basic financial statements of the Douglas County Board of Education.

Government-wide Statements:

The Statement of Net Assets and the Statement of Activities display information about the financial activities of the overall School District, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the School District's governmental activities.

- Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses (expenses of the School District related to the administration and support of the School District's programs, such as office and maintenance personnel and accounting) are not allocated to programs.
- Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

In the Statement of Net Assets, equity is reported as net assets and consists of amounts invested in capital assets, net of related debt, amounts restricted by outside parties for specific purposes and unrestricted amounts.

Fund Financial Statements:

The fund financial statements provide information about the School District's funds, including fiduciary funds. Eliminations have been made to minimize the double counting of internal activities. Separate statements for each category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

**DOUGLAS COUNTY BOARD OF EDUCATION
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2010**

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The School District reports the following major governmental funds:

- *General Fund* is the School District's primary operating fund. It accounts for all financial resources of the School District, except those resources required to be accounted for in another fund.
- *District-Wide Capital Projects Fund* accounts for financial resources including Special Purpose Local Option Sales Tax (SPLOST), Bond Proceeds and grants from Georgia State Financing and Investment Commission to be used for the acquisition, construction or renovation of major capital facilities.
- *Debt Service Fund* accounts for taxes (property and sales) legally restricted for the payment of general long-term principal, interest and paying agent's fees.

The School District reports the following fiduciary fund types:

- *Agency Funds* account for assets held by the School District as an agent for various individual school clubs and activities.
- *Private Purpose Trust Funds* account for assets held by the School District in a trustee capacity.

Basis of Accounting/Measurement Focus

The basis of accounting determines when transactions are reported on the financial statements. The District-wide governmental activities and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Agency funds are custodial in nature and do not present results of operations or have a measurement focus. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the School District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, sales taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from sales taxes is recognized in the fiscal year in which the underlying transaction (sale) takes place. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The School District uses funds to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School District considers all revenues reported in the governmental funds to be

**DOUGLAS COUNTY BOARD OF EDUCATION
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2010**

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

available if they are collected within sixty days after year-end. Property taxes, sales taxes, intergovernmental revenue, and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities and capital leases are reported as other financing sources.

Revenue from grants and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the School System must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School System on a reimbursement basis.

The State of Georgia reimburses the School System for teachers' salaries and operating costs through the Quality Basic Education Formula Earnings program (QBE). Generally teachers are contracted for the school year (July 1 – June 30) and paid over a twelve month contract period, generally September 1 through August 31. In accordance with the respective rules and regulations of the QBE program, the State of Georgia reimburses the School System over the same twelve month period in which teachers are paid. At June 30, the amount of teachers' salaries incurred but not paid until July and August of the subsequent year are accrued. Since the State of Georgia recognizes its QBE liability for the July and August salaries at June 30, the School System recognizes the same QBE as a receivable and revenue, consistent with symmetrical recognition.

The School District funds certain programs by a combination of specific cost-reimbursement grants, categorical grants, and general revenues. Thus, when program costs are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the School District's policy to first apply grant resources to such programs, followed by cost-reimbursement grants, then general revenues.

Cash and Cash Equivalents

COMPOSITION OF DEPOSITS

Cash and cash equivalents consist of cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition in authorized financial institutions. Georgia Laws OCGA 45-8-14 authorizes the School District to deposit its funds in one or more solvent banks or insured Federal savings and loan associations.

NOTES TO THE BASIC FINANCIAL STATEMENTS

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments

COMPOSITION OF INVESTMENTS

Investments made by the School District in nonparticipating interest-earning contracts (such as certificates of deposit) and repurchase agreements are reported at cost. Participating interest-earning contracts and money market investments with a maturity at purchase of one year or less are reported at amortized cost. Both participating interest-earning contracts and money market investments with a maturity at purchase greater than one year are reported at fair value. The Official Code of Georgia Annotated Section 36-83-4 authorizes the School District to invest its funds. In selecting among options for investment or among institutional bids for deposits, the highest rate of return shall be the objective, given equivalent conditions of safety and liquidity. Funds may be invested in the following:

- (1) Obligations issued by the State of Georgia or by other states,
- (2) Obligations issued by the United States government,
- (3) Obligations fully insured or guaranteed by the United States government or a United States government agency,
- (4) Obligations of any corporation of the United States government,
- (5) Prime banker's acceptances,
- (6) The Local Government Investment Pool administered by the State of Georgia, Office of Treasury and Fiscal Services,
- (7) Repurchase agreements, and
- (8) Obligations of other political subdivisions of the State of Georgia.

The School District does not have a formal policy regarding investments that addresses credit risks, custodial credit risks, concentration of credit risks, interest rate risks or foreign currency risks.

Receivables

Receivables consist of amounts due from property and sales taxes, grant reimbursements due on Federal, State or other grants for expenditures made but not reimbursed and other receivables disclosed from information available. Receivables are recorded when either the asset or revenue recognition criteria has been met. Receivables recorded on the basic financial statements do include an allowance for uncollectible receivables when necessary.

Property Taxes

The Douglas County Tax Commissioner fixed the property tax levy for the 2009 tax digest year (calendar year) on September 15, 2009 (levy date). Taxes were due on November 16, 2009 (lien date). Taxes collected within the current fiscal year or within 60 days after year-end on the 2009 tax digest are reported as revenue in the governmental funds for fiscal year 2010. The Douglas County Tax Commissioner bills and collects the property taxes for the School District, withholds 1% of taxes collected as a fee for tax collection and remits the balance of taxes collected to the School District. Property tax revenues, at the fund reporting level, during the fiscal year ended June 30, 2010, for maintenance and operations amounted to \$74,334,074 and for debt service amounted to \$11,883,551.

The Georgia Constitution, Article VIII, Section VI, Paragraph I requires the board of education of each school system to annually certify to its fiscal authority or authorities a school tax not greater than 20 mills per dollar for the support and maintenance of education. The Douglas County Board of Education is in compliance with this law. Tax millage rates levied for the 2009 tax year (calendar year) for the Douglas County Board of Education were as follows (a mill equals \$1 per thousand dollars of assessed value):

School Maintenance and Operations	18.35 mills
School Bonds	<u>3.00</u> mills
	<u>21.35</u> mills

Sales Taxes

Special Purpose Local Option Sales Tax, at the fund reporting level, during the year amounted to \$21,405,810 and is to be used for capital outlay for educational purposes or debt service. This sales tax was authorized by local referendum and the sales tax must be re-authorized at least every five years.

Inventories

CONSUMABLE SUPPLIES

On the basic financial statements, consumable supplies are reported at cost (first-in, first-out). The School District uses the consumption method to account for the consumable supplies inventory whereby an asset is recorded when supplies are purchased and expenses/expenditures are recorded at the time the supplies are consumed.

FOOD INVENTORIES

On the basic financial statements, inventories of donated food commodities used in the preparation of meals are reported at their Federally assigned value and purchased foods inventories are reported at cost (first-in, first-out). The School District uses the consumption method to account for inventories whereby donated food commodities are recorded as an asset and as revenue when received, and expenses/expenditures are recorded as the inventory items are used. Purchased foods are recorded as an asset when purchased and expenses/expenditures are recorded as the inventory items are used.

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Prepaid Items

Payments made to vendors for services that will benefit periods subsequent to June 30, 2010, are recorded as prepaid items.

Capital Assets

Capital assets purchased, including capital outlay costs, are recorded as expenditures in the fund financial statements at the time of purchase (including ancillary charges). On the District-wide financial statements, all purchased capital assets are valued at cost where historical records are available and at estimated historical cost based on appraisals or deflated current replacement cost where no historical records exist. Donated capital assets are recorded at estimated fair market value on the date donated. Disposals are deleted at depreciated recorded cost. The cost of normal maintenance and repairs that do not add to the value of assets or materially extend the useful lives of the assets is not capitalized. Depreciation is computed using the straight-line method. The School District does not capitalize book collections or works of art. Depreciation is used to allocate the actual or estimated historical cost of all capital assets over estimated useful lives.

Capitalization thresholds and estimated useful lives of capital assets reported in the District-wide statements are as follows:

		<u>Capitalization Policy</u>	<u>Estimated Useful Life</u>
Land		All	N/A
Land Improvements	\$	10,000	20 years
Buildings			
Temporary	\$	10,000	25 years
Permanent	\$	50,000	50 years
Buildings Improvements	\$	10,000	7 to 30 years
Equipment	\$	10,000	4 to 20 years

General Obligation Bonds

The School District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. In addition, general obligation bonds have been issued to refund existing general obligations bonds. Bond issuance costs are recognized in the financial statements during the fiscal year bonds are issued. General obligation bonds are direct obligations and pledge the full faith and credit of the government.

In the fund financial statements, the face amount of debt issued and any related premium, is reported as other financing sources. Issuance costs, whether or not withheld from actual proceeds, are reported as debt service expenditures.

**DOUGLAS COUNTY BOARD OF EDUCATION
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2010**

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 3: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

The School System adopts an annual budget for the General Fund and Debt Service Fund. The budget is prepared in accordance with provisions of the Quality Basic Education Act, OCGA Section 20-2-167 and in accordance with U.S. generally accepted accounting principles. After the Board of Education has tentatively adopted the budget, such budget is advertised at least one time in a local newspaper of general circulation. At the next regular meeting of the Board after advertisement, the budget is revised as necessary and adopted as the final budget.

Note 4: DEPOSITS AND INVESTMENTS

COLLATERALIZATION OF DEPOSITS

Official Code of Georgia Annotated (OCGA) Section 45-8-12 provides that there shall not be on deposit at any time in any depository for a time longer than ten days a sum of money which has not been secured by surety bond, by guarantee of insurance, or by collateral. The aggregate of the face value of such surety bond and the market value of securities pledged shall be equal to not less than 110 percent of the public funds being secured after the deduction of the amount of deposit insurance. If a depository elects the pooled method (OCGA 45-8-13.1) the aggregate of the market value of the securities pledged to secure a pool of public funds shall be not less than 110 percent of the daily pool balance. At June 30, 2010, all deposits were secured by surety bond, insurance or collateral.

Custodial credit risk. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the School District will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. State statutes require all deposits and investments (other than federal or state government instruments) to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties, or municipalities. As of June 30, 2010, the School District's cash accounts and investments were properly collateralized as required by State statutes.

Note 4: DEPOSITS AND INVESTMENTS (Continued)

Acceptable security for deposits consists of any one of or any combination of the following:

- (1) Surety bond signed by a surety company duly qualified and authorized to transact business within the State of Georgia,
- (2) Insurance on accounts provided by the Federal Deposit Insurance Corporation,
- (3) Bonds, bills, notes, certificates of indebtedness or other direct obligations of the United States or of the State of Georgia,
- (4) Bonds, bills, notes, certificates of indebtedness or other obligations of the counties or municipalities of the State of Georgia,
- (5) Bonds of any public authority created by the laws of the State of Georgia, providing that the statute that created the authority authorized the use of the bonds for this purpose,
- (6) Industrial revenue bonds and bonds of development authorities created by the laws of the State of Georgia, and
- (7) Bonds, bills, notes, certificates of indebtedness, or other obligations of a subsidiary corporation of the United States government, which are fully guaranteed by the United States government both as to principal and interest or debt obligations issued by the Federal Land Bank, the Federal Home Loan Bank, the Federal Intermediate Credit Bank, the Central Bank for Cooperatives, the Farm Credit Banks, the Federal Home Loan Mortgage Association, and the Federal National Mortgage Association.

CATEGORIZATION OF INVESTMENTS

At June 30, 2010, the carrying value of the School District's total investments was \$138,956,278, which is materially the same as fair value. This investment consisted of funds invested in the Local Government Investment Pool administered by the State of Georgia, Office of Treasury and Fiscal Services which is not required to be categorized since the School District did not own any specific identifiable securities in the pool. The investment policy of the State of Georgia, Office of Treasury and Fiscal Services for the Local Government Investment Pool does not provide for investment in derivatives or similar investments. Additional information on the Local Government Investment Pool is disclosed in the *State of Georgia* Comprehensive Annual Financial Report. This audit can be obtained from the Georgia Department of Audits and Accounts at the following address: <http://www.audits.state.ga.us/internet/searchRpts.html>. The Georgia Fund 1, which is not registered with the SEC as an investment company, but does operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940. The investment is valued at the pool's share price, \$1.00 per share. The pool is an AAAM rated investment pool by Standard and Poor's. The weighted average maturity of Georgia Fund 1 may not exceed 60 days. The weighted average maturity for Georgia Fund 1 on June 30, 2010, was 46 days.

Note 8: RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; job related illness or injuries to employees; acts of God; and unemployment compensation and vision plan.

The School District participates in the Georgia School Boards Association Risk and Insurance Management System, a public entity risk pool organized on July 1, 1994, to develop and administer a plan to reduce risk of loss on account of general liability, motor vehicle liability, or property damage, including safety engineering and other loss prevention and control techniques, and to administer one or more groups of self-insurance funds, including the processing and defense of claims brought against members of the system. The School District pays an annual premium to the system for its general insurance coverage. Additional coverage is provided through agreements by the system with other companies according to their specialty for property, boiler and machinery (including coverage for flood and earthquake), general liability (including coverage for sexual

Note 8: RISK MANAGEMENT (Continued)

harassment, molestation and abuse), errors and omissions, crime and automobile risks. Payment of excess insurance for the system varies by line of coverage.

The School District has established a limited risk management program for workers' compensation claims. A premium is paid by the General Fund at the beginning of the fiscal year for an excess workers' compensation coverage policy which covers individual claims in excess of \$300,000 loss per occurrence, up to the statutory limit. Assessments of individual programs, except School Food Services, are performed, as needed, on the basis of that program's payroll to total payroll in order to cover estimated claims budgeted by management based on known claims and prior experiences. School Food Services is billed by the General Fund for the actual amount of claims for that program. The School District accounts for claims with expenses/expenditures and liabilities being reported when it is probable that a loss has occurred in the amount of that loss can be reasonably estimated. For purposes of estimating the unpaid claims liability as of June 30, 2010, the School District's third party administrator computed the reserve liability based on the estimated cost of each outstanding claim from claims experience of similar claims.

Changes in the workers' compensation claims liability during the last two fiscal years are as follows:

	Beginning of Year	Claims and Changes in Estimates	Claims Paid	End of Year	Due Within One Year
2009	\$ 1,053,679	\$ 1,191,675	\$ 1,111,269	\$ 1,134,085	\$ 842,943
2010	\$ 1,134,085	\$ 1,561,660	\$ 1,509,416	\$ 1,186,329	\$ 652,481

The School District is self-insured with regard to unemployment compensation claims. The School District accounts for claims within the General Fund with expenses/expenditures and liability being reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated.

Changes in the unemployment compensation claims liability during the last two fiscal years are as follows:

	Beginning of Year	Changes in Estimates	Claims Paid	End of Year
2009	\$ -	\$ 20,034	\$ 20,034	\$ -

Note 9: OPERATING LEASES

Douglas County Board of Education is committed under various leases for equipment. These leases are considered for accounting purposes to be operating leases. Lease expenditures for the year totaled approximately \$326,892. Future minimum lease payments on these leases are as follows:

<u>Year ending June 30,</u>	
2011	\$ 330,983
2012	330,983
2013	330,983
Total	<u>\$ 992,949</u>

Note 10: LONG – TERM DEBT

COMPENSATED ABSENCES

Compensated absences represent obligations of the School District relating to employees' rights to receive compensation for future absences based upon service already rendered. This obligation relates only to vesting accumulating leave in which payment is probable and can be reasonably estimated. Typically, the General Fund is the fund used to liquidate this long-term debt. The School District uses the vesting method to compute compensated absences.

GENERAL OBLIGATION DEBT OUTSTANDING

General Obligation Bonds currently outstanding are as follows:

<u>Purpose</u>	<u>Interest Rates</u>	<u>Amounts</u>
General Government - Series 2005	3.00% - 5.00%	\$ 57,100,000

In the current fiscal year, the School District issued \$8,925,000 of Series 2010 General Obligation Refunding Bonds to (i) refund a portion of the Series 1999 General Obligation Refunding Bonds and (ii) pay the costs of issuing the Series 2010 General Obligation Refunding Bonds. Refunding was undertaken to save on the debt service payments maturing through 2015. The refunding reduced the total debt service payments by \$715,891 over the next 5 years and resulted in an economic gain of \$705,681. The School District defeased the 1999 bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the School District's financial statements. At June 30, 2010, \$9,250,000 of bonds outstanding are considered defeased. The School District has pledged its full faith and credit and taxing power to service the debt.

	\$ 12,786,889

The amounts described in this note are not reflected in the basic financial statements.

Note 13: SIGNIFICANT CONTINGENT LIABILITIES

Amounts received or receivable principally from the Federal government are subject to audit and review by grantor agencies. This could result in requests for reimbursement to the grantor agency for any costs which are disallowed under grant terms. The School District believes that such disallowances, if any, will be immaterial to its overall financial position.

The School District is a defendant in various legal proceedings pertaining to matters incidental to the performance of routine School District operations. The ultimate disposition of these proceedings is not presently determinable, but is not believed to be material to the basic financial statements.

Note 14: RETIREMENT PLANS

TEACHERS RETIREMENT SYSTEM OF GEORGIA (TRS)

Plan Description. The TRS is a cost-sharing multiple-employer defined benefit plan created in 1943 by an act of the Georgia General Assembly to provide retirement benefits for qualifying employees in educational service. A Board of Trustees comprised of active and retired members and ex-officio State employees is ultimately responsible for the administration of TRS. The Teachers Retirement System of Georgia issues a separate stand alone financial audit report and a copy can be obtained from the Georgia Department of Audits and Accounts.

**DOUGLAS COUNTY BOARD OF EDUCATION
NOTES TO THE BASIC FINANCIAL STATEMENTS
JUNE 30, 2010**

Note 14: RETIREMENT PLANS (Continued)

On October 25, 1996, the Board created the Supplemental Retirement Benefits Plan of the Georgia Teachers Retirement System (SRBP-TRS). SRPB-TRS was established as a qualified excess benefit plan in accordance with Section 415 of the Internal Revenue Code (IRC) as a portion of TRS. The purpose of SRBP-TRS is to provide retirement benefits to employees covered by TRS whose benefits are otherwise limited by IRC Section 415. Beginning July 1, 1997, all members and retired former members in TRS are eligible to participate in the SRPB-TRS whenever their benefits under TRS exceed the IRC Section 415 imposed limitation on benefits.

TRS provides service retirement, disability retirement, and survivor's benefits. The benefit structure of TRS is defined and may be amended by State statute. A member is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. A member is eligible for early retirement after 25 years of creditable service.

Normal retirement (pension) benefits paid to members are equal to 2% of the average of the member's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. Early retirement benefits are reduced by the lesser of one-twelfth of 7% for each month the member is below age 60 or by 7% for each year or fraction thereof by which the member has less than 30 years of service. It is also assumed that certain cost-of-living adjustments, based on the Consumer Price Index, will be made in future years. Retirement benefits are payable monthly for life. A member may elect to receive a partial lump-sum distribution in addition to a reduced monthly retirement benefit. Death, disability and spousal benefits are also available.

Funding Policy. TRS is funded by member and employer contributions as adopted and amended by the Board of Trustees. Member contributions are limited by State law to not less than 5% or more than 6% of a member's earnable compensation. Member contributions as adopted by the Board of Trustees for the fiscal year ended June 30, 2010, were 5.25% of annual salary. The member contribution rate will increase to 5.53% effective July 1, 2010. Employer contributions required for fiscal year 2010 and 2009 were 9.74% and 9.28%, respectively, of annual salary as required by the June 30, 2008, actuarial valuation. The employer contribution rate will increase to 10.28% effective July 1, 2010.

PUBLIC SCHOOL EMPLOYEES RETIREMENT SYSTEM (PSERS)

Substantially all bus drivers, maintenance, custodial, and lunchroom personnel employed by the District are members of the Public School Employees Retirement System of Georgia (PSERS), which is also a cost-sharing multiple employer public employee retirement system. The Board of the Public School Employees Retirement System of Georgia issues a publicly available financial report that includes financial statements and supplementary information for PSERS. That report may be obtained by writing Public School Employee Retirement System, Two Northside 75, Atlanta, Georgia 30318-7778, or by calling 1-800-805-4609.

PSERS provides service retirement, disability retirement and survivor's benefits for its members. A member is eligible for normal service retirement after 10 years of service and attainment of age 65. A member applying for service retirement with 10 years of services and retires between the ages of 60 and 65 receive a reduced benefit. Monthly retirement benefits paid to members are equal to eight dollars per month multiplied by the number of years of creditable service. Retirement provisions include death and disability benefits. Benefits are established by state statute.

Covered employees are required by state statute to contribute four dollars per month for the nine month school year. Unlike TRS, the School District makes no contribution to PSERS. Total contributions from employees of the School District were \$25,440, \$24,876, and \$24,528 for the fiscal years ended June 30, 2010, 2009, and 2008, respectively.

The State of Georgia is required by statute to make an annual contribution to PSERS based upon an actuarial calculation. The state's contribution for School District employees was \$92,470, \$125,584, and \$24,247 for the fiscal years ended June 30, 2010, 2009, and 2008, respectively.

Members become fully vested after 10 years of service. If a member terminates with less than 10 years of service, no vesting of employer contributions occurs, but the member's contributions are refunded with interest. There were 767, 730, and 763 employees (members) covered under PSERS for the fiscal years ended June 30, 2010, 2009, and 2008, respectively.

GEORGIA RETIREE HEALTH BENEFIT FUND

Plan Description. The School District contributes to the Georgia School Personnel Post-employment Health Benefit Fund ("Benefit Fund"), a cost-sharing multiple-employer defined benefit postemployment healthcare plan administered by the Department of Community Health. The Benefit Fund provides health insurance benefits to eligible retirees and their qualified beneficiaries. Pursuant to Title 45, Chapter 18 of the Official Code of Georgia Annotated, the authority to establish and amend the benefit provisions of the plan is assigned to the State of Georgia Board of Community Health. The Department of Community Health issues a publicly available financial report that includes financial statements and required supplementary information for the Benefit Fund. That

report may be obtained from the Department of community Health at 2 Peachtree Street, Atlanta, Georgia 30303.

Funding Policy. The contribution requirements of the plan members and participating employers are established and may be amended by the Board of Community Health. Contributions of plan members or beneficiaries receiving benefits vary based on plan election, dependent coverage, and Medicare eligibility and election. On Average, plan members pay approximately twenty-five percent (25%) of the cost of health insurance coverage. Participating employers are statutorily required to contribute in accordance with the employer contribution rate established to fund both the active and retired employee health insurance plans based on projected pay-as-you-go financing requirements. The employer contribution rates for the combined active and retiree plans for the fiscal year ended June 30, 2010, were as follows:

Certified employees

<u>Period</u>	<u>Percentage of Covered Payroll</u>
July 2009 - August 2009	18.534% of covered payroll for August through September coverage
September 2009 - November 2009	14.492% of covered payroll for October through November coverage
December 2009 - June 2010	18.534% of covered payroll for January through July coverage

Non-Certificated Employees \$162.72 per month

No additional contribution was required by the Board of Community Health for fiscal year 2010 nor contributed to GRBHF to prefund retiree benefits. Such additional contribution amounts are determined annually by the Board of Community health in accordance with the State plan for other post-employment benefits and are subject to appropriation.

The School District’s contribution to the health insurance plans, which equaled the required contribution, for the fiscal year ended June 30, 2010, 2009, and 2008 were \$18,258,151, \$13,455,510, and \$18,235,585 which equaled the required contribution.

Retiree health benefits were previously funded through the Georgia Retiree Health Benefit Fund (GRHBF). In 2009, the General Assembly revisited the GRHBF and enacted legislation that, effective August 31, 2009, separated the GRHBF into two new funds: the Georgia School Personnel Post-employment Health Benefit Fund and the Georgia State Employees Post-employment Health Benefit Fund. The purpose of this change was to assure employers responsible for planning and funding future retiree health costs that their contributions will be dedicated to their respective retiree populations. Funds in the GRHBF were transferred to the Georgia State Employees Post-employment Health Benefit Fund or the Georgia School Personnel Post-employment Health Benefit Fund as described in the plan financial statements. The statue that created the GRHBF is repealed effective September 1, 2010.

III. SINGLE AUDIT SECTION

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

**To the Superintendent and Members of
the Douglas County Board of Education
Douglasville, Georgia**

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Douglas County Board of Education as of and for the year ended June 30, 2010, which collectively comprise the Douglas County Board of Education's basic financial statements and have issued our report thereon dated April 15, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Douglas County Board of Education's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Douglas County Board of Education's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Douglas County Board of Education's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Douglas County Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the Douglas County Board of Education in a separate letter dated April 15, 2011.

This report is intended solely for the information and use of management, the members of the Douglas County Board of Education, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD
HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL
CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

**To the Superintendent and Members of
the Douglas County Board of Education
Douglasville, Georgia**

Compliance

We have audited the compliance of the Douglas County Board of Education with the types of compliance requirements described in the OMB *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the Douglas County Board of Education's major federal programs for the year ended June 30, 2010. The Douglas County Board of Education's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the Douglas County Board of Education's management. Our responsibility is to express an opinion on the Douglas County Board of Education's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Douglas County Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Douglas County Board of Education's compliance with those requirements.

In our opinion, the Douglas County Board of Education complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

The management of the Douglas County Board of Education is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Douglas County Board of Education's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Douglas County Board of Education's internal control over compliance.

A *deficiency* in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness* in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the members of the Douglas County Board of Education, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

DOUGLAS COUNTY BOARD OF EDUCATION
SCHEDULE OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2010

SECTION IV
STATUS OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS

2009-1. – Annual Certification of Time and Efforts Sheets – Exceptional Student Services Cluster:

U.S. Department of Education, Flow Through, CFDA #84.027

U.S. Department of Education, Preschool, CFDA #84.173

Criteria: In accordance with the terms of the Special Education Cluster (CFDA 84.027 and 84.173), semi-annual certification of time and effort sheets should be maintained for employees who work solely on a single cost objective (i.e. special education services).

Condition and Context: For the year ended June 30, 2009, the School System was not properly maintaining semi-annual certification of time and effort sheets for any teachers and any other staff being paid out of Exceptional Student Services funds.

Status: This matter was corrected during the year ended June 30, 2010.
